The SHOOT is AERODYNE's acro wing. It is the weapon of choice for acro experts". Flown by the 2008 French acro champion Marck Cyrille, its efficiency is clearly evident! The SHOOT is also regarded by acro specialists as one of the better wings for infinity tumbling.

The materials from which the SHOOT is manufactured are specifically chosen to withstand the rigours of aerobatics, and carefully-placed reinforcements further improve longevity.

The SHOOT will stay with you during the most extreme maneuvers... and more, as you become better acquainted!

Experience infinite sensations with the SHOOT!
